

Making Luxury Interiors Accessible to Everyone

“

At Zebrano Studio, we believe **great design** should be within everyone's reach. From bespoke doors to fully integrated wall features, our mission is to bring luxury craftsmanship and architectural beauty into **every type of home** — from city apartments to countryside villas.”

”

From One Door to Endless Possibilities

The Zebrano Studio Journey

What began as a single custom door project has evolved into a full collection of pivot, sliding, hinged, and flush-to-wall designs that redefine how interiors feel. Inspired by luxury hotels and architectural details, we've made it our mission to create doors and wall features that combine premium materials with personal design freedom.

Sustainability

Craftsmanship that cares

We choose sustainable materials, work with responsible suppliers, and build pieces meant to last for decades. Because great design should never come at the planet's expense

Created by our makers, perfected in production.

“

Real hands. Real sawdust. Unreal results.

From first sketch to final fit, we design, prototype, and build under one roof — so every millimetre lines up and every door feels effortlessly right.
